Global Payments Reports First Quarter 2022 Results

May 2, 2022

Reaffirms Outlook for 2022

Signs Letter of Intent with Caixabank for Card Issuing Technologies

Reports Progress On Strategic Review of Netspend Consumer Business

Exits Russian Business

ATLANTA -- Global Payments Inc. (NYSE: GPN) today announced results for the first guarter ended March 31, 2022.

"The resilience of our business continued through the first quarter of 2022 with performance exceeding our expectations despite incremental macro headwinds throughout the period," said Jeff Sloan, Chief Executive Officer. "We are especially pleased with the results for our Merchant Solutions business, which again demonstrated ongoing momentum as our strategies for differentiated growth continue to win in the marketplace."

Sloan continued, "We are delighted to announce that Caixabank has now signed a letter of intent memorializing Global Payments as its technology partner for its card issuing businesses following our selection as the finalist company early in 2022. This is the largest new customer LOI for our Issuer Solutions business since 2013 and would more than double our implementation pipeline, providing opportunities for accelerated growth over the next several years. In conjunction with recent wins with a debit focus, our partnership with Caixabank positions Global Payments as a leading debit technology provider across Europe.

"We also continue to make progress on refining our portfolio mix by simplifying the composition of our businesses and maintaining our focus on our core corporate customers. First, we are pleased to report that we have made progress with the strategic review of the Netspend consumer business that we announced this past February."

Sloan concluded, "Second, in regards to the exit of our Russian business, this has been a difficult time for our team members, customers and partners across the region and especially in Ukraine. We have provided financial and humanitarian support to those impacted."

First Quarter 2022 Summary

- GAAP revenues were \$2.16 billion, compared to \$1.99 billion in the first quarter of 2021; diluted earnings per share were \$0.87 compared to \$0.66 in the prior year; and operating margin was 17.4% compared to 13.8% in the prior year.
- Adjusted net revenues increased 8% to \$1.95 billion, compared to \$1.81 billion in the first quarter of 2021.
- Adjusted earnings per share increased 14% to \$2.07, compared to \$1.82 in the first quarter of 2021.
- Adjusted operating margin of 41.1% expanded 50 basis points.

2022 Outlook

"We are pleased with our strong financial performance in the first quarter, which exceeded our expectations despite the ongoing impacts of the pandemic, incremental headwinds from the war in Europe and adverse foreign currency exchange rates," said Paul Todd, Senior Executive Vice President and Chief Financial Officer. "We achieved high-single-digit adjusted net revenue growth, adjusted operating margin expansion and mid-teens adjusted earnings per share growth driven by consistent execution of our technology-enabled strategy.

"For 2022, the company continues to expect adjusted net revenue to be in a range of \$8.42 billion to \$8.50 billion, reflecting growth of 9% to 10% (10% to 11% on a constant currency basis) over 2021, and adjusted earnings per share to be in a range of \$9.45 to \$9.67, reflecting growth of 16% to 19% (17% to 20% on a constant currency basis) over 2021. We are raising our expectation for annual adjusted operating margin for 2022 to expand by up to 125 basis points (up to 175 basis points excluding acquisitions), an increase from the prior outlook of up to 100 basis points (up to 150 basis points excluding acquisitions)."

Todd concluded, "This outlook presumes continuing recovery from the pandemic worldwide and a stable global macroeconomic environment throughout 2022."

Capital Allocation

Global Payments' Board of Directors approved a dividend of \$0.25 per share payable June 24, 2022 to shareholders of record as of June 10, 2022.

Non-GAAP Financial Measures

Global Payments supplements revenues, income, operating income, operating margin and earnings per share determined in accordance with GAAP by providing these measures with certain adjustments (such measures being non-GAAP financial measures) in this earnings release to assist with evaluating our performance. In addition to GAAP measures, management uses these non-GAAP financial measures to focus on the factors the company believes are pertinent to the daily management of our operations.

Reconciliations of each of the non-GAAP financial measures to the most directly comparable GAAP measure are included in the schedules to this release.

Forward-Looking Statements

Investors are cautioned that some of the statements we use in this report contain forward-looking statements and are made pursuant to the "safe-harbor" provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements, which are based on current expectations, estimates and projections about the industry and markets in which we operate, and beliefs of and assumptions made by our management, involve risks, uncertainties and assumptions that could significantly affect the financial condition, results of operations, business plans and the future performance of Global Payments. Actual events or results might differ materially from those expressed or forecasted in these forward-looking statements. Accordingly, we cannot guarantee that our plans and

expectations will be achieved. Examples of forward-looking statements include, but are not limited to, statements we make regarding guidance and projected financial results for the year 2022; the effects of the COVID-19 pandemic on our business, including estimates of the effects of the pandemic on our revenues, financial operating results and liquidity; timing and completion of anticipated benefits of acquisitions or strategic initiatives; our success and timing in developing and introducing new services; and future financial and operating results. Although we believe that the plans and expectations reflected in any forward-looking statements are based on reasonable assumptions, we can give no assurance that our plans and expectations will be attained, and therefore actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements.

In addition to factors previously disclosed in Global Payments' reports filed with the SEC and those identified elsewhere in this communication, the following factors, among others, could cause actual results to differ materially from forward-looking statements or historical performance: the effects of global economic, political, market, health and social events or other conditions, including the effects and duration of, and actions taken in response to, the COVID-19 pandemic and the evolving situation involving Ukraine and Russia; our ability to meet our liquidity needs in light of the effects of the COVID-19 pandemic or otherwise; difficulties, delays and higher than anticipated costs related to integrating the businesses of Global Payments and TSYS, including with respect to implementing controls to prevent a material security breach of any internal systems or to successfully manage credit and fraud risks in business units: the effect of a security breach or operational failure on the Company's business; failing to comply with the applicable requirements of Visa, Mastercard or other payment networks or card schemes or changes in those requirements; the ability to maintain Visa and Mastercard registration and financial institution sponsorship; the ability to retain, develop and hire key personnel; the diversion of management's attention from ongoing business operations; the continued availability of capital and financing; increased competition in the markets in which we operate and our ability to increase our market share in existing markets and expand into new markets; our ability to safeguard our data; risks associated with our indebtedness, foreign currency exchange and interest rate risks; our ability to meet environmental, social or governance targets, goals and commitments; the potential effect of climate change including natural disasters; the effects of new or changes in current laws, regulations, credit card association rules or other industry standards on us or our partners and customers, including privacy and cybersecurity laws and regulations; and other events beyond our control, such as acts of terrorism, and other factors included in the "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2021, and in other documents that we file with the SEC, which are available at https://www.sec.gov. Any forward-looking statements speak only as of the date of this communication or as of the date they were made, and we undertake no obligation to update forward-looking statements, except as required by law.

NON-GAAP FINANCIAL MEASURES

Global Payments supplements revenues, income, operating income, operating margin and EPS determined in accordance with U.S. GAAP by providing these measures with certain adjustments (such measures being non-GAAP financial measures) in this document to assist with evaluating our performance. In addition to GAAP measures, management uses these non-GAAP financial measures to focus on the factors the company believes are pertinent to the daily management of our operations. Management believes adjusted net revenue more closely reflects the economic benefits to the company's core business and allows for better comparisons with industry peers. Management uses these non-GAAP financial measures, together with other metrics, to set goals for and measure the performance of the business and to determine incentive compensation. Adjusted net revenue, adjusted operating margin, adjusted net income and adjusted EPS should be considered in addition to, and not as substitutes for, revenues, operating income, net income and EPS determined in accordance with GAAP. The non-GAAP financial measures reflect management's judgment of particular items, and may not be comparable to similarly titled measures reported by other companies.

Adjusted net revenue excludes gross-up related payments associated with certain lines of business to reflect economic benefits to the company. On a GAAP basis, these payments are presented gross in both revenues and operating expenses. Adjusted operating income, adjusted net income and adjusted EPS exclude acquisition-related amortization expense, share-based compensation expense, acquisition and integration expense and certain other items specific to each reporting period as more fully described in the accompanying reconciliations in Schedules 6 and 7. Adjusted operating margin is derived by dividing adjusted operating income by adjusted net revenue. Adjusted net revenue and adjusted EPS range on a constant currency basis excludes the estimated impact of foreign currency fluctuations and is calculated using average exchange rates during 2021. Adjusted EPS for 2022 excludes the impact of any impairment losses. The tax rate used in determining the income tax impact of earnings adjustments is either the jurisdictional statutory rate in effect at the time of the adjustment or the jurisdictional expected annual effective tax rate for the period, depending on the nature and timing of the adjustment.

Adjustments to 2021 GAAP diluted EPS include the removal of 1) software-related contract liability adjustments described above of \$0.02, 2) acquisition related amortization expense of \$3.39, 3) share-based compensation expense of \$0.47, 4) acquisition and integration expense of \$0.89, 5) facilities exit charges of \$0.15, 6) other items of \$(0.01), 7) equity method investment earnings from our interest in a private equity investment fund of \$(0.16) and 8) discrete tax items of \$0.12. Adjustments to 2021 GAAP diluted EPS include the effect on noncontrolling interests and income taxes, as applicable.
